STELLAR'S BEST UTILITY SOFTWARE

stellar

Stellar offers some of the best utility software in data recovery, migration and erasure.

We have a wide range of B2C and B2B software for data recovery, file repair, email repair, email conversion and data erasure for both Windows and Mac platforms.

SOFTWARE FOR CONSUMERS

Our software category consist of various award winning data recovery, photo recovery and file repair tools. Our data recovery tools help consumers in getting back their lost or deleted data including photos, music, videos, documents etc.

Our repair tools help repair corrupt or damaged photos, videos, Word, Excel and PowerPoint files with original formatting intact. These must have tools are read-only software available for both Windows & Mac.

SOFTWARE FOR BUSINESS

Stellar ensures that businesses get a solution as per their requirements, be it recovering lost or deleted data from any storage media or repairing corrupt emails, or migrating files from one email client to another or repairing databases.

Stellar's B2B software simplifies complex IT administration tasks like managing MS Exchange, MS Outlook or getting data back from encrypted media etc., thereby helping IT managers work efficiently.

FEATURED PRODUCT CATEGORIES

stellar

At Stellar, we are committed to creating most advanced software for data care.

This ranges from the recovery of unintentionally lost data to complete erasure of data when disposing off IT assets.

DATA RECOVERY

Our data recovery software category consists of tools that efficiently recover permanently deleted or lost data like documents, emails, photos, music files etc., from all kind of storage devices working on new and legacy operating systems.

DATA MIGRATION

Our software in this category helps migrate data & email boxes from one email client to another with all mail items intact. The software automates the migration process & facilitates complete mailbox migration. Tools like EDB to PST, OST to PST etc. are liked by IT technicians.

DATA ERASURE

Stellar's data erasure tools consist of secure, fast & efficient software to permanently erase data with no scope of recovery to maintain privacy and confidentiality, especially at the time of disposal or reallocation of your IT assets.

DATABASE REPAIR

Stellar's database repair tools help repair and recover databases created on Microsoft SQL server, Oracle, MySQL etc. The software provides preview of all the recoverable database components before the actual recovery.

E-MAIL REPAIR

Our email repair tools help repair and recover from inaccessible mailboxes of corrupt or damaged EDB files, PST files etc. The software shows preview of the mailbox and its items before the actual recovery.

FILE REPAIR

This category of tools helps repair corrupt or damaged files like video files, photos, Word, Excel, PDF files etc., with their initial formatting intact in their original state.

STELLAR TOOLKITS

stellar

Specialized toolkits are available for businesses to help them improve productivity & efficiency.

Software in this category consists of toolkit to manage MS Exchange, Outlook, MS SQL etc. These are promoted by technology affiliates with earning of $300 per sale.

TOOLKIT FOR EXCHANGE

Stellar Toolkit for Exchange is a must-have for all Exchange Administrators. Repairs corrupt EDB and BKF files, extracts inaccessible mailboxes, converts OST to PST & recovers server password to eliminate the need for a new production server, PowerShell knowledge, etc.

TOOLKIT FOR OUTLOOK

Stellar Toolkit for Outlook repairs severely corrupt and encrypted PSTs, convert multiple OSTs to PSTs, and reduce PST file corruption with its 'Split; 'Merge' or 'Compact' PST. Also, recovers lost PST password.

TOOLKIT FOR MS SQL

It is indispensable for SQL database administrators. The toolkit also helps to recover SQL server passwords. The powerful software solution repairs, recovers, and restores all database objects and maintains database integrity.

TOOLKIT FOR DATA RECOVERY

Stellar Toolkit for Data Recovery is an Enterprise-grade data recovery solution to recover lost or inaccessible data from logically corrupt or failed storage devices and Windows, Mac and Linux based systems.

TRUST THE EXPERTS

With 25+ Years of Expertise

Stellar has established itself as "Data Care Expert" since last 25+ years. We are global leaders in providing data recovery, data migration and data erasure software and services. We offer simple DIY software and provide professional in-lab services. Our in-house team of 100+ R&D experts develop indigenous utility software. Today, our software have won various awards and accolades from top media houses like TopTen Reviews, PC Mag, PC World, Techradar etc. for their capability and performance.

TECH GIANTS REVIEWS

Top Media houses have reviewed our software over the years & have rated us as the best.

The products at Stellar are powerful and easy to use in the most critical data situations and thus the chosen ones by big tech houses.

EDWARD MENDELSON

Editor

For beginners and non-technical users, Stellar Data Recovery for Windows is the obvious first choice among data recovery software. A beautifully designed, efficient interface makes the program a pleasure to use.

SUZANNE HUMPHRIES

Electronics & Software Writer

It successfully recovered all lost and reformatted JPG and raster images in our tests, and it also had solid recovery rates for production images and vector images. The program's interface is clean and well-designed.
